Expression of Concern to: Evaluation of patients with multiple sclerosis using reverse nutech functional score and expanded disability status scale after human embryonic stem cell therapy

Geeta Shroff*

Expression of Concern: *Clin Trans Med* (2016) 5:43

DOI 10.1186/s40169-016-0124-3

The Editors-in-Chief of *Clinical and Translational Medicine* are issuing an editorial expression of concern to alert readers that concerns have been raised regarding the ethics of this study [1]. Appropriate editorial action will be taken once this has been fully investigated. The author disagrees with this notice.

The online version of the original article can be found under doi:[10.1186/s40169-016-0124-3](https://doi.org/10.1186/s40169-016-0124-3).
